REQUIREMENT RR/HTA/E/R14/57: Describe changes since World War II in the Daugavpils Railroad Yards and Shops, Central.

REMARKS:

The Daugavpils Railroad Yards and Shops, Central, located 94 miles northeast of Vilnius on the Kharkov-Riga rail line, functions primarily as a freight handling and limited classification facility.

A comparison of [REDACTED] photography with that of [REDACTED] reveals that three former locomotive shops with a combined area of 81,000 square feet have been replaced by two shops with a total area of 36,000 square feet. A coal storage area has been added to the northern section of the installation since World War II.
